

Digital Learning: Week 1 March 16-20, 2020

*Students will be held accountable for the daily completion of one activity from each academic subject. **Place a ✓ on the line next to each task once your child has completed the activity.** If you choose, feel free to complete all the activities for each day! Please keep this paper and any other work associated with it as it will be turned into your child’s teacher when school resumes. Your child can record their answers on the spaces provided or on separate pieces of paper from home that you can attach. **Please note that the completion of these assignments will be taken for grades.**

*Brainpop Jr, iRead for reading, and iReady for math are all accessible through Classlink. *Your child will need their user ID and Password to login.* The logins and directions were previously sent home earlier in the year as well as again earlier this month. Students are familiar with these programs and know how to access the apps, but please let us know if you need individual logins.

*If you have technical issues, please see the Fulton County website for technical support.

If your child completes all of the activities listed below, here are some additional free websites to help support your child’s learning at home:

- www.Starfall.com: free website with reading and math activities (no account needed)
- www.Abcya.com: free website with reading and math activities (no account needed)
- www.Getepic.com: free website (you must create a free account)

Writing:

Task 1:

You are quite an amazing writer with interesting ideas on how to make the world a better place. Use this knowledge to write a persuasive piece on one solution you have to a problem you see at home, school, or in your community. You have the choice to select the type of writing (e.g. a poem, letter, booklet) you will do, but make sure to follow the steps below and in the anchor chart:

1. See a problem.
2. Think about ways to solve this problem.
3. Write a lot! (Remember you have lots to say and share!)
4. Decide who you will share the piece with.

Task 1:

Continue working on your writing topic from yesterday. Don't forget to tell your problem, and give lots of fix-it ideas and reasons why it is a problem!

Task 1: Write a letter to Mrs. Rosenthal telling her why we should or should not have more digital learning days.

- Tell her if you would rather have more digital days OR if you prefer to go to school.
- Include 2-3 reasons to support your opinion (*I think this because...*)
- Be convincing!
- Use all your phonics skills to spell the words as best you can :)

Task 1:

Continue working on your writing topic from yesterday. Don't forget to tell your topic, and give lots of reasons why you chose that as a problem to fix.

Task 1: Which dinner choice would you rather have? Why?

Steak

Or

Fish
